Social medical center Oberwallis

The school social work is a center of consulting of the social medical center Oberwallis and works locally at the schools. Our offer is voluntarily and for free.

Our goals:

- We strengthen personal and social competence of the students.
- We advice and support students, teachers and parents.
- We contribute significantly to a positive school atmosphere.

Our principles:

- We offer fast, uncomplicated, solutions- oriented support.
- We put the best interests of the child at the centre of our acting.
- We`re working in a close partnership with the person the child relies on.
- We mediate and stay impartial.
- The information shared during a consueling meeting is kept strictly confidential.

Our offer:

...for students:

You have an idea in mind you are wishing to turn into reality?
You are looking for support or simply an advice? Are you in a dispute at school or at home?
Are you having difficulties with something? Are you worried about someone?
– Together we`re going to search for the reasons and work on solutions that suit your needs.

...for the parents:

- We are contact persons for parents with uncertainties in dealing with their school-aged children.
- We support parent-school contact. On request we will attend parent-teacher discussions or mediate in conflicts with the school.
- If desired, we can put you in contact with other competence centres.

...for school

- We offer teachers thematic exchanges in terms of pupil self- and social skills.
- We advise and support the school management and teachers at the school building culture concerns and the class dynamics .
- In cooperation with teachers, we work on social issues with classes.
- We are committed to the prevention work.
